MACHINE NAME	MEASUREMENT without packaging	WEIGHT	CONSUMPTION	SERVICES	CONTAINERS of PRODUCT	WHISK	PAYMENT METHOD
COFFEEMAR G546H KEY	1829x600x597	135kg	230V/1150W	500	5 pieces of furniture + sugar + grain container	4	Configurable
COFFEEMAR G546H KEY BLUETEC	1829x600x597	132kg	230V/1150W	500	5 furniture + sugar + grain bin	4	Configurable

## CHARACTERISTICS

- High adaptability in the selection of your payment system, thanks to the presence of **2 EVA size holes** in the peripherals section of the machine.
- With the possibility of **master configuration**, with integrated numeric keypad, allowing up to 4 Jofemar satellite machines, to provide a complete and integrated solution for coffee and snack products.
- All variants comply with the **ADA requirement** (Americans with Disabilities Act).
- Stainless steel boiler with improved insulation that allows for a reduction in energy consumption.
- 2 glass size options depending on the dispenser installed (maximum height 117mm).
- Cup detection photocell allows the user to use their own cup instead of getting a cup from the machine.
- Coin payment option thanks to JF8.
- New 4.3" color graphic display.
- Self-calibration of the flow meter.
- Articulated waste buoy, allowing for better removal and cleaning operations.
- Improved accessibility to the waste area to facilitate removal and cleaning.

## DESIGN

New design that allows integration with the V8 Range. With its new graphic display and its elegant design with multiple colors and combinations between them.

- Payment, selection and product delivery systems at an easily accessible height.
- Lighting when inserting and collecting coins.
- Backlit keyboard for low-light environments.
- 36x56mm display label that allows for a more attractive presentation of the products.
- LED lighting in glass collection area.

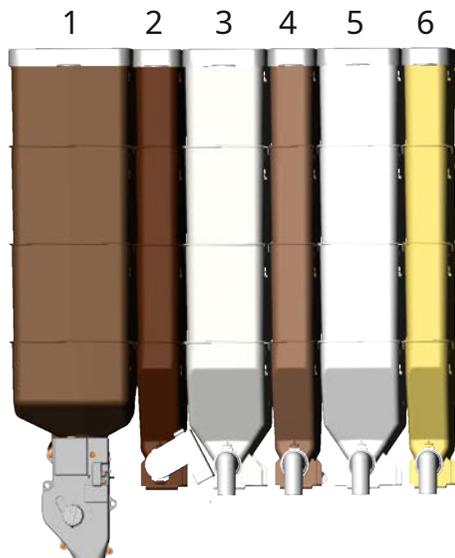

## OPTIONS

- Allows you to dispense coffee without the need for a water supply,  
For this purpose, it carries a water container inside.
- Option to put the Glass front, where the entire surface is covered  
from the machine with glass.
- Support for normal or Riella locks.
- Option to have a BT11 bill reader or another standard type.
- User validation card reader, such as our J-140.
- Option to put 70mm or 80mm glasses.
- Stirrer dispenser.
- Fresh brew option.

## PROGRAMMING

- Option of **data extraction** with J-SUITE via J-LINK
- Display with the possibility of programming the size of texts and images.
- In it **Display module incorporates the control unit**, allowing for easy **update** by using the USB port.
- DEX connector as the only solution for the **accounting extraction** and **telemetry**.
- **Programming button** to access the different menus of the machine.

## PRODUCT CONTAINERS

	PRODUCT CONTAINERS	CAPACITY (g)	NUMBER OF SERVICES
